## Why Update the Current General Plan?

A comprehensive update of the Trinity County General Plan is long overdue to satisfy compliance with statutory requirements, internal consistency, and inclusion of the recently established cannabis program. A new visioning document is needed to define the County's goals for the next 20 to 25 years. This effort is intended to be a comprehensive overhaul of the document. This planning effort will also allow the General Plan Team to implement best practices to ensure Trinity County is resilient to future risks while also improving overall quality of life. Also, as part of the General Plan Update process, the General Plan Team will work with residents, stakeholders, and decision-makers to review and update the County's existing Zoning Ordinance to address State and Federal law requirements.
